

Department of Communication Design

Course / Level DE124101

Module DCD3006 Web Media Workshop

Tutor Name Henry Chong

Name: _____ Class Code: _____

Free CSS library (Animate.css)

- 1) Use a text editor (**Visual Studio Code** / **PC-Notepad** / **Mac-TextEdit**) to create a HTML page
- 2) Prepare files & Folders before writing HTML / CSS / JavaScript

Naming conventions:

- Use **English characters** as file / folder name
- Use **"underscore"** symbol instead of space between words
- Always name the first page of a web site as **"index.html"**
- In this class exercise, you will need to link the existing **Free CSS library (Animate.css)** into your website
- Link the Animate.css by a **CDN** hosted version and make the "Hong Kong" animated

Insert **hongkong.jpg** as a full screen background-image, and resized the position as the beside demo

Go to
<https://daneden.github.io/animate.css/>

<https://github.com/daneden/animate.css>

Choose any **CSS animation** you like for the word **"Hong Kong"** and put in the web, make the animation with a delay in **1s** and duration in **3s**

Put all the words values inside the **class "word"**

Font: Arial
Text Color: #ffffff
Text Size: 120px
Text Shadow: Horizontal Length: 2px
Vertical Length: 1px
Blur Radius: 3px
Shadow Color : #230096

- 3) Send the Zip all the files together with your Student No. and English full name to webmediaworkshop2020@gmail.com
- 4) Deadline: 2 April 2020
